

Cell and Developmental Biology SEMINAR SERIES

2021

23 September
13:00

Jean-Léon Maître – Institut Curie, Paris, France

Mechanics of mammalian development (Fassberg Seminar)

09 December
13:00

Andrea Pauli – IMP, Vienna, Austria

Fundamental principles during the egg-to-embryo transition (Fassberg Seminar)

2022

27 January
13:00

Maya Schuldiner – Weizmann Institute of Science, Rehovot, Israel

Cross-talk of organelles (Fassberg Seminar)

10 February
13:00

Nicolas Plachta – University of Pennsylvania, Philadelphia, USA

Cell fate in the mammalian embryo (Fassberg Seminar)

03 March
13:00

Raphaël Mercier – MPI-BPR, Cologne, Germany

Chromosome biology in plant meiosis (Fassberg Seminar)

31 March
13:00

Scott Keeney – MSKCC, New York, USA

Meiotic recombination (Fassberg Seminar)

05 May
13:00

Laura Johnston – Columbia University, New York, USA

Dynamics of cell competition in development, regeneration and cancer (Fassberg Seminar)

30 June
13:00

Andrea Page-McCaw – Vanderbilt University, Nashville, USA

Signaling mechanisms during wound detection and repair (Fassberg Seminar)

HOST: DR. MELINA SCHUH AND DR. JOCHEN RINK

Zoom or in presence
(Will be announced via email before each seminar)
